RE: Replacement of the Coraopolis
Bridge
County Project (OB02-0607)
Hazardous Waste Investigation

Dear Mr. Abreu:

Please find enclosed for your review and comments one copy of the Phase II Hazardous Waste Investigation for the above captioned project. In the letter sent to you March 23, 1990, we requested your attendance at a meeting scheduled for April 19, 1990 in the Allegheny County Courthouse. At this meeting we can plan to discuss the results of Phase I and Phase II of the Hazardous Waste Investigation, how the results affect the County's proposed project to replace the Coraopolis Bridge, and the process of receiving the required approvals to use the site of the proposed new bridge location on Neville Island. As you are aware from previous correspondence, this site is within property on the EPA's National Priority List (NPL).

Please review the enclosed report and be prepared to discuss the findings from the investigation as outlined in the meeting agenda which was attached to the March 23rd letter. Additional results from some laboratory tests on soil and water samples will be sent to you next week.

If you have any questions or have comments prior to the April 19th meeting, please contact Mr. Thomas Stockhausen at (412) 281-6393.

Very truly yours,

Herbert C. Higginbotham
